

JL-MOC Cutter JL-MOC II Cutter

- Drop forged shock resistant steel blades
- Premium quality components
- Star-grip control valve
- Dual pilot check valve

Model 362R486 & 362R487

High strength steel materials are the hallmark of modern constructions. Stronger metals call for more powerful cutters in rescue operations where every second counts.

The Hurst® JL-MOC Parrot Blade Cutter gives rescuers up to 156,236 lbs. of cutting force in an ergonomic and lightweight design. At just 46 lbs., the JL-MOC is built to withstand the rigors of modern rescues.

The Hurst® JL-MOC II Curved Blade Cutter was designed to address these ever-changing conditions. With up to 152,870 lbs. of cutting force, this incredible cutter weighs in at only 47 lbs. The JL-MOC II packs life-saving power for today's rescue challenges.

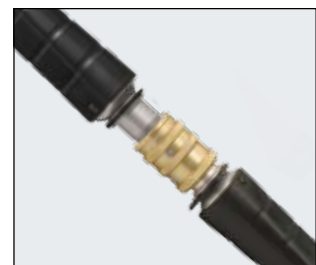

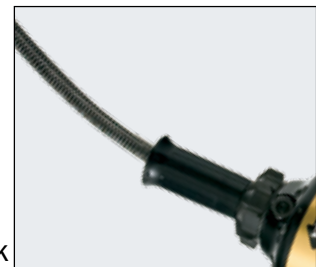

Applications

- Vehicle rescue applications
- Urban search and rescue operations
- Structural collapse
- Industrial rescue applications
- Large-scale transportation rescue situations such as train wrecks, aircraft emergencies and large truck/tractor incidents

Features & Benefits

- With up to 156,236 lbs. of cutting force, the JL MOC cuts up to 1-1/2" round bar stock with power to spare
- Designed with unprecedented cutting forces to address the challenges of modern auto technology
- the JL-MOC Parrot blade geometry grips material firmly for fast, clean and smooth scissor-cutting action
- The JL-MOC II Curved blade geometry pulls materials to the back of the blade area for fast clean action
- Hose exit directs the hydraulic hose out of the tool handle and away from the work area
- Premium quality, heat-treated, forged alloy steel blades for optimum strength and endurance
- Star-grip control valve actuator permits tool operation from almost any handling position
- The handle is designed to direct hydraulic hose away from the work area
- Dropped forged shock resistant steel blades

JL-MOC II CUTTER
362R487

Specifications	Model 362R486	Useful Component
Description	JL MOC	Hurst's full line of Low Pressure hose reels and Assemblies meets or exceeds SAE 100R8. <i>See page 23.</i>
Cutting Force	up to 156,236 lbs.	
Opening	11.06"	
Size (L x W x H)	31.1 x 9.05 x 8.97 in.	
Weight	46 lbs.	
Specifications	Model 362R487	
Description	JL MOC II	
Cutting Force	up to 152,870 lbs.	
Opening	7"	
Size (L x W x H)	30.9 x 9.06 x 8.9 in.	
Weight	47 lbs.
